

SIG Assured for control and peace of mind

SIG lead the industry in providing customer peace of mind through our 'shield of assurance' campaign.

For the past three years, we've worked with our suppliers to ensure the products we stock meet with essential regulatory compliance. This means we can supply compliance documents for REACH, CE marking, EUTR, Safety Data Sheets and Explosive Precursors – all of which have been independently verified – at a moment's request.

So, whenever you see the SIG 'shield of assurance' stamp you can be confident that every item you buy from us is fully traceable and supported by independent specialist appraisal.

To see which suppliers and products are SIG Assured, please visit www.sigassured.co.uk

Build your name on us. Delivering for contractors

SIG Construction Accessories is the leading specialist supplier of construction and civil engineering accessories.

With over 10,000 products, huge warehousing and distribution capacity, nationwide locations and expert contractor support, no one's better placed to supply everything your customers need.

Because, when projects are big, deadlines are tight, and the products are specialist, you need a trusted supplier who can keep their promise, and help you deliver on yours.

You need SIG Construction Accessories.

MASONRY CENTRE

Specialist Masonry Centres

From our specialist Masonry Centres, dedicated in-house teams of masonry experts provide customers with the advice, support and products needed for any job.

SIG Construction Accessories has a trusted reputation within the masonry industry, and with more and more brickwork contractors, sub-contractors and regional contractors relying on us as the 'one stop shop' for all their masonry needs, our reputation is building every day.

Unrivalled industry expertise

All our staff are highly-trained and know the masonry industry inside-out. They also receive ongoing training, so you can be sure that the specialist product and industry advice they offer is the very latest.

Support built on relationships

Our masonry customers value the advice we offer around specifications. And because we deal with all the key manufacturers, we're able to support you from one central place, without you having to shop around different branches for the products you need.

Project management service

To support you and your construction projects we offer a project management service for brickwork products.

At enquiry stage, you'll be allocated a dedicated Project Manager. Liaising on your behalf with manufacturers, buyers, project managers, architects and engineers, they ensure the products you need are supplied to site on time.

Send your architectural drawings to your dedicated Project Manager who does the rest:

- Identify where brickwork components are required
- Specify the right products
- Provide project take-offs
- Quote
- Arrange the design and manufacture of products
- Liaise with manufacturers and site to schedule deliveries
- Provide after sales support

Our fully qualified team of chartered surveyors and engineers has the knowledge and experience to deliver your design requirements.

Take-off service & specification

Our project management service includes full take-off for masonry support, wall ties, DPC cavity trays, cavity closers and windposts. Our specialist team has the experience to ensure a fast turnaround, so you can get an estimate and your order quickly and efficiently.

We also offer a design service for bespoke products, including masonry support, windposts and cloaks to meet any requirements. By co-ordinating the design process from start to finish we can deliver a speedy tailor-made, trouble-free masonry package.

A tailored service

Call on our expertise at any stage of your project and we'll be there. We can also offer advice on specification alternatives to ensure you're using the most suitable product for the job.

What we supply

While we specialise in masonry, SIG Construction Accessories also offer a host of other products, including:

GROUNDWORK	REINFORCEMENT	FLOORING	SEALANTS
WATERPROOFING	BRICKWORK	ANCHORS	FILLERS
FORMWORK	CONCRETE REPAIR	GROUTS	RENDER

Stock held as standard

Each of our Masonry Centres hold stock. This, combined with our nationwide delivery network and the knowledge of our staff, means we always deliver next day and you get everything you need from just one phone call or visit.

Nationwide coverage

With Masonry Centres in Ruislip and Manchester, we offer the same dedicated, expert service to our masonry customers in the north and south of the country.
